EDUCATION

Joint Ph.D. in Economics and Anthropology *2021 - Present*
University of Paris 1 Panthéon-Sorbonne, France
Vrije Universiteit Amsterdam, Netherlands

Thesis: "Mining and Development in Africa: Three Essays on Migration, Political Participation and Women's Livelihoods". Advisors: Rémi Bazillier (UP1) and Marjo de Theije (VU).

Visiting Researcher *2023*
University of Cape Town, South Africa

Visiting Researcher *2022*
Barnard College, NY

M.Sc. in Global Development *2018-2020*
University of Copenhagen, Denmark

B.Sc. in Economics and Finance *2015-2018*
Bocconi University, Italy
ERASMUS: Erasmus University, Netherlands

SKILLS

Language Italian (Native), English (Fluent), French (Very Good)
Software Stata, QGIS, NVivo, Python, SurveyCTO, Latex, MS Office

WORK EXPERIENCE

Centre Nationale de la Recherche Scientifique *Paris, 2021-2025*
Researcher
I have designed and implemented research projects on industrial and artisanal mining in sub-Saharan Africa, some of which focusing on gender issues. In particular, I have applied impact evaluation methods and analyzed large datasets to inform policy on sustainable development and energy transition. In addition, I have produced reports and presented findings to civil society, international donors, and government stakeholders.

United Nations Capital Development Fund *Remote, 2021*
Data Analysis and Research Intern
I have supported the Data and Research Team in its work on migration and remittances, contributing to the development of migrant-centric financial products by developing lean data surveys, customer journey mapping and drafting reports.

Development Economics Research Group at UCPH *Denmark, 2020*
Research Assistant
I have supported day-to-day research activities related to a project on inclusive and sustainable development in Myanmar, owned by the United Nations University World Institute of Development Economics (UNU-WIDER) with technical assistance from the University of Copenhagen. In particular, I have supported design and implementation of an RCT on business practices; trained 98 enumerators for in-person surveys; conducted survey writing, coding, piloting, and collaborative data analysis with local partners.

Development Economics Research Group at UCPH *Myanmar, 2019*

Intern

Based at Myanmar's Central Statistics Organisation (CSO), I supported the coordination and implementation of several research projects funded by the Danish Ministry of Foreign Affairs. In particular, I supervised data collection and cleaning activities related to the implementation of a nation-wide survey of manufacturing SMEs, and prepared and carried out a study on gender wage gap in Myanmar. I also presented the projects at the Myanmar 2019 Statistics Forum organized by the World Bank, and organized official Steering Committee Meeting.

RESEARCH PROJECTS

Women and Mining in South Africa *2023 - Present*

This project aims to understand the consequences of extractivism for women living in mining-affected communities, with focus on small-scale economic activities. Fieldwork has been conducted across several mining-affected communities in South Africa in collaboration with the social movement MACUA / WAMUA. Results have been presented to other stakeholders, particularly civil society organizations like ActionAid Netherlands and SOMO Netherlands.

Mining and Gender Attitudes *2021 - Present*

PI: Anja Benshaul-Tolonen

The project aims to understand the effects of mining activities on the formation of men and women's attitudes towards gender issues, with special focus on female political participation.

Artisanal and Small-Scale Mining in Liberia *2021-2022*

PI: Rémi Bazillier

The project aims to collect information on mining locations in Liberia and analyse the impacts of artisanal and small-scale mining on local mining communities. Fieldwork has been conducted between 2019 and 2023. Results have been published and presented to policy makers in Liberia.

Myanmar Business Practices Intervention *2019-2020*

Development Economics Research Group at UCPH

In collaboration with UNU-WIDER and Myanmar's Central Statistics Organization, the BPI Project consists of a randomized control trial testing the impact of a business practices training, inspired by the work of McKenzie and Woodruff (2016). The RCT involvs 1400 micro, small and medium enterprises from all the 14 States and Regions of Myanmar.

Myanmar Enterprise Monitoring System *2019-2020*

Development Economics Research Group at UCPH

Funded by Danida, the MEMS Project is a collaboration between UNU-WIDER, the University of Copenhagen and Myanmar's Central Statistics Organization. It aims to improve information and knowledge about economic policy issues in Myanmar related to SMEs. The project includes the implementation of a national panel survey of the manufacturing sector.
